

I totally support and recommend a total ban on all unsolicited telemarketing calls from any (profit or non-profit)commercial organization. It is a severe invasion of my privacy. I am currently receiving FIVE OR MORE of these calls every day, many from rude people. A large percentage of these calls are hang-ups by the time I answer the phone. I refuse to buy/agree to anything solicited by telephone, ever.

I noticed in your FTC comments it will "take months" for this to be implemented if approved. Why? Please get it done by the end of 2002!!!!!! Thanks.

Charles Baldwin
